Open Innovation Guidelines

- **Vision of Open Innovation**
  HACKSAVVY-2026 promotes an Open Innovation culture encouraging collaborative, ethical, and sustainable solutions to real-world societal, industrial, and national challenges.
- **Participation & Team Formation**
  The hackathon is open to students and innovators from recognized institutions. Interdisciplinary and inter-institutional teams are encouraged, as per official team size rules.
- **Problem Statements**
  Problem statements may be proposed by participants. Teams may extend or build upon open ideas responsibly.
- **Ethics & Responsible Innovation**
  Solutions must adhere to ethical computing principles, ensure data privacy and security, and avoid harmful, discriminatory, or unlawful outcomes.
